Introduction

Welcome to the **ZAIZENS Integrated HMS** Role Profiles User Guide. This document explains how each clinical and operations role uses the hospital system day to day. Use the credentials below to sign in and practice each workflow on the demo installation.

Signing in (all roles)

1. Open your HMS URL (demo: `http://localhost:3004`).
2. Enter your **username** and **password** from the table below.
3. Usernames are **not case-sensitive** — `lariza` and `Lariza` both work.
4. After login you are taken to your role portal; use the sidebar or app launcher to open modules.
5. Always **sign out** on shared computers when finished.

Demo credentials

Table of contents

1. Demo credentials

2. 2. Cashier (Lariza)
3. 3. Doctor (Awelsa)
4. 4. Nurse (Ghong)
5. 5. Radiologist (Tef)
6. 6. Lab Technician (Sedrick)
7. 7. Pharmacist (Berinyuy)
8. Shared navigation
9. Support & troubleshooting

Cashier — Staff Guide

Collect payments, issue prepay tickets, print receipts, manage wallets and payment codes.

Login
Lariza

Password

Main screen
/cashier

Daily workflow

Tips & reminders

- 💡 Wallet payments require the patient to have an active wallet with sufficient balance.
- 💡 BetterPay: wait for patient confirmation on their phone before marking payment received.
- 💡 Payment codes link OPD orders to Lab/Radiology/Pharmacy — always verify code status before redirecting patients.

Doctor — Staff Guide

Consult patients, record clinical notes, order lab/radiology tests, prescribe medication, and admit IPD.

Main screen
/opd-queue

Daily workflow

Tips & reminders

💡 Patients must pay (or have insurance coverage) before lab/radiology can process orders.

💡 Use the clinical chart (`<code>/patient/:id</code>`) for full history, allergies, and documents.

💡 Teleconsultation links are available when enabled by your administrator.

Nurse — Staff Guide

Triage OPD patients, record vitals, support ward care, and assist IPD medication workflows.

Login
Ghong

Main screen
/opd-queue

Daily workflow

Tips & reminders

- 💡 Always verify patient identity (name, ID band, date of birth) before procedures.
- 💡 Vitals saved on the chart are visible to the consulting doctor immediately.
- 💡 Use the HMS Hub for a quick overview of today's OPD and IPD workload.

Radiologist — Staff Guide

Process imaging worklist, verify payment codes, upload reports, and finalise radiology studies.

Login
Tef

Password
12345

Main screen
/radiology

Daily workflow

Tips & reminders

- 💡 Unpaid orders appear with payment pending — direct patient to Cashier first.
- 💡 Critical findings should be communicated to the referring clinician per hospital protocol.
- 💡 Reports are visible on the patient chart once finalised.

Lab Technician — Staff Guide

Receive lab requests, verify payments, enter results in LIMS, and release final reports.

Login
Sedrick

Password
12345

Main screen
/lab

Daily workflow

Tips & reminders

- 💡 OPD lab orders from doctors require payment unless covered by insurance/waiver.
- 💡 Use barcode or request ID search for fast lookup during busy periods.
- 💡 Pending vs completed filters help prioritize STAT and emergency requests.

Pharmacist — Staff Guide

Dispense prescriptions, verify payments, manage stock alerts, and counsel patients on medications.

Login
Berinyuy

Password
12345

Main screen
/pharmacy

Daily workflow

Tips & reminders

- 💡 Doctor prescriptions from OPD consultations appear after consultation is saved.
- 💡 Low-stock alerts are visible on the pharmacy dashboard — reorder via procurement if permitted.
- 💡 Partial dispensing is supported when full quantity is not immediately available.

Shared navigation

Apps launcher

Click the **grid icon** (top-left) to open the visual app launcher — switch between modules without returning to your portal.

HMS Hub

`/hms` shows today's KPIs: OPD queue, appointments, IPD census, and shortcut cards to major modules.

Patient chart

From almost any list, open a patient to view the full chart: demographics, vitals, consultations, orders, prescriptions, and documents.

Language

Switch between **English** and **Français** using the language control in the header where available.

Workflow guides (in-app)

After login, visit `/workflow-guides` for additional role-scoped step-by-step flows inside the application.

Support & troubleshooting

Issue	What to do
Invalid username or password	Check credentials table — usernames are case-insensitive; passwords are case-sensitive.
Menu item missing	Your role may lack permission — contact the system administrator.
Lab/Radiology/Pharmacy won't process	Patient likely needs Cashier payment first — verify payment code status.
Wallet payment fails	Patient needs a wallet account and sufficient balance — use Cash Top-up at Cashier.
Session expired	Sign in again; unsaved work may be lost — save frequently.

Security: Demo passwords are for training only. Change all credentials before production use. Never share your login with colleagues.
